alabus *insurance*

... supports the insurer in all his relevant business processes with partners.

... allows for an extended (Online-) service offering.

... makes your processes simple, transparent and reproducible.

... engages your customers/brokers transparently in all processes (claims, offers, etc.).

... realizes a noticeable increase in efficiency at a lower level of costs.

... is an integrated, multi-channel insurance solution for companies, who want to use their time with professional consulting instead of administration.
